## COMPANY OUT TO BUY STEAMERS

Negotiations Towards Establishing New Line Between Norfolk and Washington Progressing.

Bill Providing Dredging Does Not Go Far Enough-Carney Not Disturbed.

fspecial to The Times-Dispatch.]

NORFOLK, VA., February 14.—Activities in behalf of the new steamboat line that is to connect this port with Washington are going on without interruption, although those interested in the enterprise, both here and in Washington, are having little to say about their plans for business reasons. It was stated to-day that the syndicate behind the line will take over the Atlantic City wharf property, purchased for the terminal of the line at this end, on March 1st. It will then be put in condition for the landing of the boats. Suitable boats for the line are now being sought, and it is known that negotiations are progressing for the purchase of certain bid years in the process of certain bid years in the process of certain bid years in the condition of the purchase of certain gressing for the purchase of certain big vessels, if they have not been al-

It is the intention of those behind the line to have it in operation for the

Thirty-Foot Channel.

Attention has just been called to the fact that the rivers and harbors bill as passed by the House of Representatives does not provide for the dredging of a thirty-foot channel to the Norfolk Navy-Yard, If the act is not amended by the Senate the thirty-foot channel from Hampton Roads will end at the junction of the Eastern and Southern Branches of the Elizabeth River, which is little above a point between the foot of Main Street, Norfolk, and the naval hospital grounds, or about a mile below the navy-yard.

As the deepening of the channel to the navy-yard was one of the prime objects of those interested in harbor improvements, it has been suggested that the law-making and business organizations of Norfolk, and Portsmouth should interest themselves in having the act amended before it becomes a law, so as to provide for the thirty-foot channel to the yard.

It is thought that the ettention of Representative Maynard and Virginia's other representatives in Washington should be directed to the matter.

President Doble, of the Board of Harbor Commissioners, has already taken up the matter. Thirty-Foot Channel.

SUFFOLK, VA., February 14.—A culmination of the fight between the Council and the residents of Suffek came of this afternoon in a contest before the Council regarding the production of Rev. Thomas Dixon's "The Clansman." There was local feeling in the matter which was in favor of the play being produced, but the Council, led by John B. Plinner, a former Mayor, said that the production should not come. A number of witnesses, including Dr. Tom Barnes, who had seen the play, testified in strong words that the play was not wrong, but in splite of all this the Council ruled that a bun on "The Clansman" be enforced.

King, who is employed at the ore mines at Happy Creek, was seen to enter Mr. Lake's store late on Tuesday night by Superintendent Lackey, of the mines, who at once notified Mr. Lake. The two men entered the room and demanded King to surrender. Pulling his revolver, King poured d'fusigide of shots at Lake and Lackey, who took refuge behind the stove and barrels of merchandise. The man emptled his revolver, the greater part of the fire being directed at Mr. Lake, who was behind the stove. Mr. Lake was slightly wounded. King fought desperately, but was finally overpowered and disarmed by the two men. He was turned over to the authorities and brought to the Berryville jail to await the action of the graad jury.

Mr. W. L. Tucker, Jr., assistant to the Final Reading Friday. Final Reading Friday.

The bill will be put through its final reading to-morrow, and there is no prospect of any change. It will go at once to the Senate, where all day the Graham bill prescribing two and three-quarters cents first and two and a quarter cents second-class fare, with two and a quarter cents mileage books, was discussed, and will be resumed to-morrow. There is a policy on the part of Senators contending for lower rates than fixed by the Graham bill to stave off a vote on the Graham bill until the House bill reaches them, and this will probably be done.

However, it is the general impression that the Senate will not concur in the rates named in the Manning bill. It ap-pears to be a pretty safe forecast the the Senate will insist on raising the rates the Senate will insist on raising the rates of the Manning bill so that the scale will give the Southern and Atlantic Coast Line two and a quarter instead of two cents.
